## About Us

Hi Tech International Group is the largest specialized polymer manufacturing group. It has plants in USA, France, Italy and India. Tuffpaulin aims at upgrading the technology of Tarpaulins. Tuffpaulin has high functional strength, tear and UV resistance and is made by Cross Lamination Technology

Our group has many Multilayer lines, Co Extrusion Lines, Twist film manufacturing plants, printing machines, woven fabric tape line plants, lamination plants in 3 locations across India namely Mumbai, Gurgaon and Ludhiana with a new site upcoming in Bangalore. We also manufacture our products in Los Angeles, California, USA, Modena Italy & Lyon France.

We take pride in our product, technology and assure that our clients earn respect from our sales of our product.
